

You can follow these steps to enable 2-Step Verification for your account.

**Step 1:** Log in to your Control Panel.

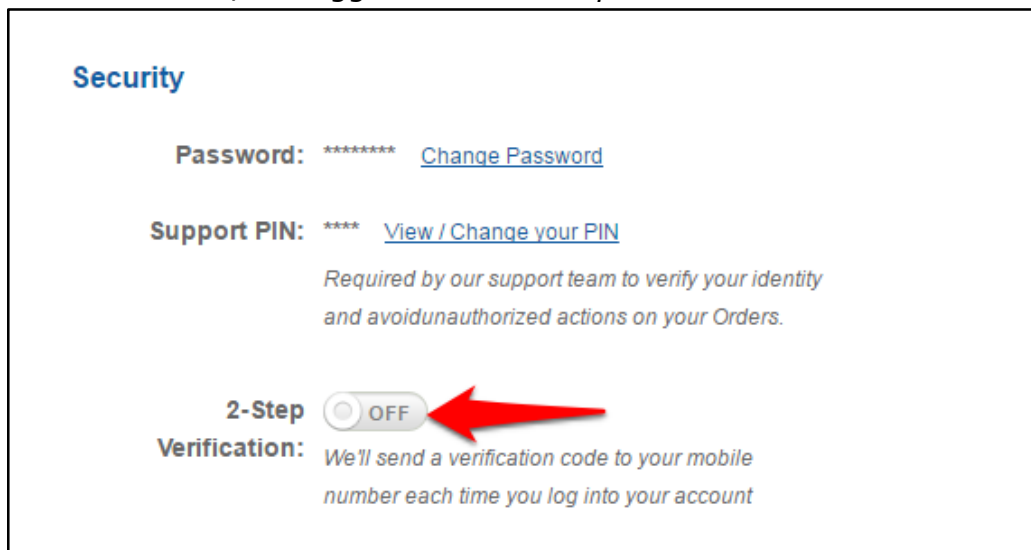

**Step 2:** Navigate to the *Account and Security* page.

Click on the  icon and then click on *Your Account and Security*.

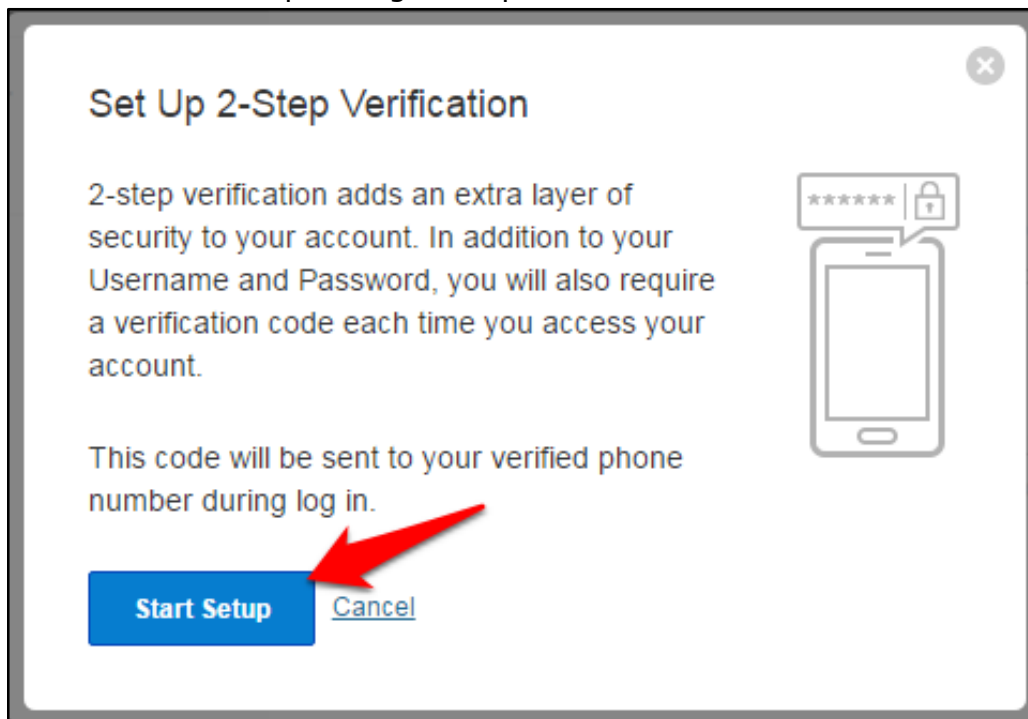

**Step 3:** Enable 2-Step Verification

- Click on the On/Off toggle next to *2-Step Verification*.

- Click on Start Setup to begin the process.

**Set Up 2-Step Verification**

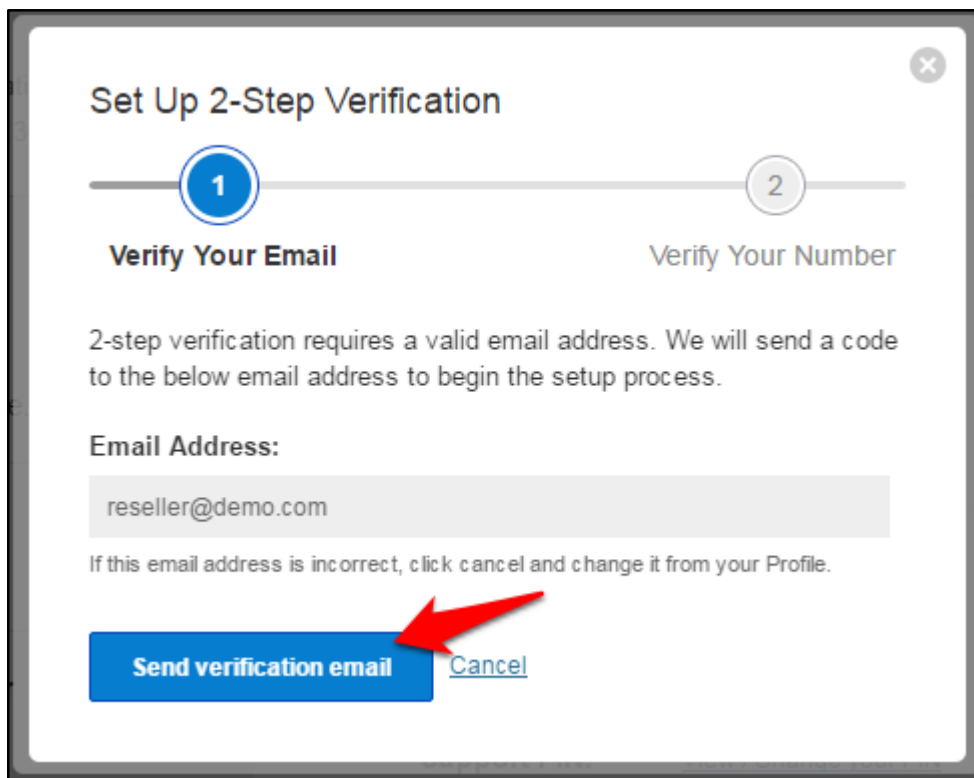

2-step verification adds an extra layer of security to your account. In addition to your Username and Password, you will also require a verification code each time you access your account.

This code will be sent to your verified phone number during log in.

**Start Setup** [Cancel](#)

The dialog box features a title bar with a close button (X). The main content area includes a descriptive paragraph, a smaller explanatory paragraph, and an illustration of a smartphone with a lock icon and a password field. At the bottom, there are two buttons: a blue 'Start Setup' button and a 'Cancel' link. A red arrow points to the 'Start Setup' button.

- Click on *Send verification email* to receive a code on your registered email address for verification.

**Set Up 2-Step Verification**

1 ————— 2

**Verify Your Email** Verify Your Number

2-step verification requires a valid email address. We will send a code to the below email address to begin the setup process.

**Email Address:**

reseller@demo.com

If this email address is incorrect, click cancel and change it from your Profile.

**Send verification email** [Cancel](#)

The dialog box has a title bar with a close button (X). It features a progress indicator at the top with two steps: '1' (active) and '2'. Below the progress bar, the title 'Set Up 2-Step Verification' is followed by the step-specific title 'Verify Your Email' and the next step title 'Verify Your Number'. The main text explains the requirement for a valid email address. Below this, there is a label 'Email Address:' and a text input field containing 'reseller@demo.com'. A note below the input field states: 'If this email address is incorrect, click cancel and change it from your Profile.' At the bottom, there are two buttons: a blue 'Send verification email' button and a 'Cancel' link. A red arrow points to the 'Send verification email' button.

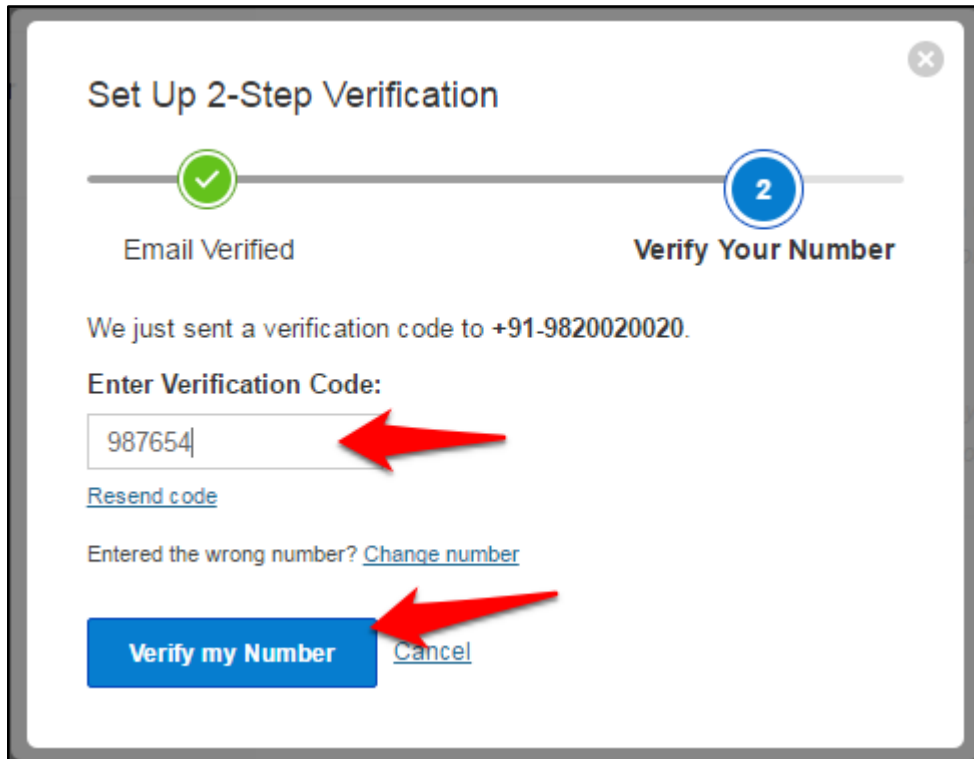

- Enter the code in the provided field and click on *Verify my Email* to complete the email verification.

The screenshot shows a dialog box titled "Set Up 2-Step Verification" with a close button in the top right. A progress bar at the top has two steps: Step 1, "Verify Your Email", which is currently active and highlighted with a blue circle containing the number 1; and Step 2, "Verify Your Number", which is inactive and shown in grey with a circle containing the number 2. Below the progress bar, the text reads: "We have sent a verification code to **reseller@demo.com**." Below this, it says "Enter Verification Code:" followed by a text input field containing the code "987654". A red arrow points to this input field. Below the input field is a link that says "Didn't receive the code? [Resend](#)". At the bottom, there are two buttons: a blue "Verify my Email" button and a grey "Cancel" link. A red arrow points to the "Verify my Email" button.

- Enter your phone number and click on *Continue* to receive a code on your phone number for verification.

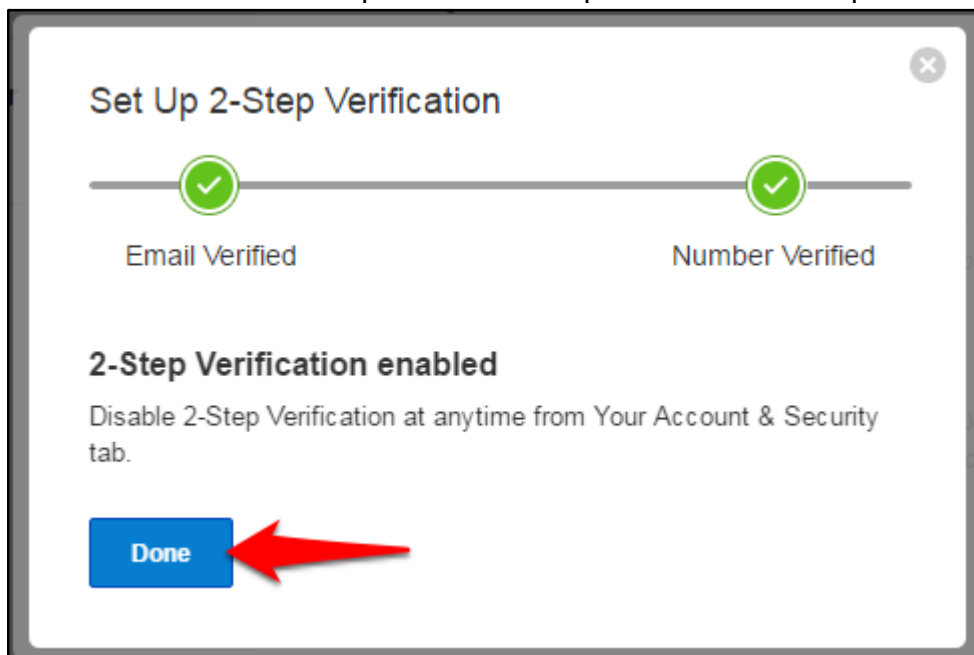

The screenshot shows the same "Set Up 2-Step Verification" dialog box, but now Step 1, "Email Verified", is completed and shown in grey with a green checkmark in its circle. Step 2, "Verify Your Number", is now the active step, highlighted with a blue circle containing the number 2. Below the progress bar, the text reads: "Enter your mobile number". Below this, there are two text input fields: the first contains "91" and the second contains "9820020020". A red arrow points to the second input field. Below the input fields, the text reads: "We will send a verification code to this number each time you access your account." At the bottom, there are two buttons: a blue "Continue" button and a grey "Cancel" link. A red arrow points to the "Continue" button.

- Enter the code in the provided field and click on *Verify my Number* to complete the phone verification.

The screenshot shows a dialog box titled "Set Up 2-Step Verification" with a close button in the top right corner. A progress bar at the top indicates two steps: "Email Verified" (completed with a green checkmark) and "Verify Your Number" (active, indicated by a blue circle with the number 2). Below the progress bar, a message states: "We just sent a verification code to +91-9820020020." The label "Enter Verification Code:" is followed by a text input field containing "987654". A red arrow points to this input field. Below the input field is a link labeled "Resend code". Further down, there is a link that says "Entered the wrong number? [Change number](#)". At the bottom, there are two buttons: a blue button labeled "Verify my Number" and a link labeled "Cancel". A red arrow points to the "Verify my Number" button.

- Click on *Done* to complete the 2-Step Verification setup.

The screenshot shows the same "Set Up 2-Step Verification" dialog box, but now both steps are completed. The progress bar shows "Email Verified" and "Number Verified", both with green checkmarks. The text "2-Step Verification enabled" is displayed in bold. Below this, a message reads: "Disable 2-Step Verification at anytime from Your Account & Security tab." At the bottom, there is a blue button labeled "Done". A red arrow points to this "Done" button.
